Objective

Enthusiastic and dedicated web developer with a passion for creating user-friendly and innovative websites. Seeking opportunities to contribute my skills and knowledge to a dynamic team while continuing to learn and grow in the field.

About Me

Highly motivated and adaptable individual with a strong work ethic. Capable of working independently or collaboratively in challenging environments. Excellent communication and problem-solving skills.

Project

1. **MERN Stack E-Commerce Platform (2023)**
   - Independently developed a robust e-commerce platform using MongoDB, Express.js, React.js, and Node.js.
   - Integrated key functionalities including product management, secure payment gateways, and user account management.
   - Designed and implemented scalable, secure, and user-friendly features, resulting in a significant increase in sales and customer satisfaction.
   - Demonstrated strong initiative, problem-solving skills, and technical expertise.
2. **Social Media Dashboard (2024)**
   - Solely developed a comprehensive social media dashboard application with advanced features using the MERN stack.
   - Implemented scheduled posting, analytics tracking, and user engagement metrics to streamline social media management.
   - Conducted thorough testing and optimization independently to ensure high performance and reliability.
3. **Web Piano Simulator (2023)**
   - Created an engaging web piano simulator independently with JavaScript, HTML5, and React, offering a realistic learning experience.
   - Designed lifelike piano sounds and responsive user interfaces to maximize user engagement.
   - Received positive feedback for creativity, usability, and educational value.

4. **Responsive Portfolio Website (2022)**
   - Developed a dynamic portfolio website independently showcasing skills and projects in web development.
   - Utilized HTML, CSS, JavaScript, and React to create a responsive and visually appealing design.
   - Demonstrated a high level of self-motivation, creativity, and attention to detail.

Education
- Bachelor of Science in Computer Science, University of Wolverhampton, 2020-2024
- +2 from Reliance College, 2016-2018

Technical Skills
- HTML
- CSS
- JavaScript
- React.js
- Express.js
- Node.js
- MongoDB
- GitHub
- Responsive Designs
- Python Django

Additional Information
- Continuous Learning: Actively pursue opportunities for professional development and stay updated with emerging trends in web development.
- Effective Communication: Possess strong communication skills, facilitating effective collaboration with team members and clients.
- Leadership Experience: Experienced in leading projects and guiding junior developers, fostering a collaborative and supportive work environment.
- Passion for Technology: Maintain a deep-seated passion for technology and its potential to drive innovation and positive changes.
